

Director's Message

Internal Security Academy, CRPF, Mount Abu is continuously making propitious efforts to train police officers in internal security matters. Functioning with the motto of "Gyanen Sadhayte Shakti" Power through the pursuit of knowledge, the Academy is striving to concrete the image of "Centre of Excellence".

CRPF, the largest Para-military force in the world, is entrusted with the enormous responsibility of safeguarding the internal security of the country. The task is multi-dimensional, multi-faceted and requires multi-pronged approach. The role of security forces to deal with the ever changing security scenario has to be balanced, dynamic, mature, responsible and in conformity to the law of land and principles of human rights.

ISA is making continuous endeavor to keep abreast with the ever changing security scenario. Eminent speakers are being invited to deliberate on various issues and subjects related to internal security to expose the participant officers to the latest trends in internal security scenario and to evolve new strategies and tactics to effectively deal with the threats. To cope up with the growing need to train more officers we have increased the number of courses for officers of CAPFs, State Police, Armed Forces, Jurists, Media and Administration.

Besides the internal security courses, the Academy is sharing the responsibility to conduct basic training of DEGOs, combatisation course for Medical Officers, in service courses to develop and enhance professional skills of officers and pre-promotional courses for CRPF officers.

I am sure the Academy will keep on playing a key role in training the police officers on internal security matters and will make significant contribution towards safeguarding the internal security of the country.

Jai Hind.

M.P.S.Negi
Director, ISA
